Hello

While ICANN is reviewing my initial and first amended DIDP request, I would like to make the include the second amended request.

Thanks in advance.

Best regards,

Michael

Supplemental Request:

Could ICANN please disclose the identity of the adaptive crisis management team (A-CMT) members, how they were selected and any compensation they may have received.

Upon reading the ICANN Board resolution, while ICANN acknowledges consulting with A-CMT and International SOS, there does not appear to have been any direct engagement with the Mexican government. Can ICANN confirm/deny if there was any direct engagement with the Mexican government. If there was any engagement, could ICANN make those communications available.

Dear Mr. Palage,

This will acknowledge our receipt of your Request for Information ("Request"), which was submitted through the Internet Corporation for Assigned Names and Numbers (ICANN) Documentary Information Disclosure Policy (DIDP) on 20 February 2020. The Request is currently under review and our response along with the original request will be emailed to you on or before 21 March 2020 and be published on the ICANN DIDP page. If you should have any additional questions regarding the ICANN DIDP Response process, please reference the DIDP Response Process Policy page <https://www.icann.org/en/system/files/files/didp-response-process-29oct13-en.pdf> [icann.org].

Best regards,

ICANN

Subject: [DIDP] Revised DIDP Request

Hello John/Amy,

Could ICANN.org please provide all documentation that was presented to the ICANN Board in connection with their decision to cancel the in person Cancun meeting.

Could ICANN also provide a detailed accounting of how each ICANN Board member voted in connection with this action, and any individual formal statements made by directors in connection with this vote. Upon information and belief there were two votes one to cancel the in-person meeting and then one to host a purely remote meeting. Can ICANN provide details on how each director voted in connection with both decisions.

Can ICANN please provide the cost impact of canceling the in-person meeting.

Given that ICANN staff will NOT be traveling to Cancun, I would respectfully request that this DIDP request be processed in an expedited manner as opposed to the typical 30 day turn around. I think this is a topic that needs to be discussed in the upcoming remote Cancun meeting and having this documentation available to the community would be helpful.

Best regards,

Michael
